We discovered Mijas:

Located in the heart of the Western Costa del Sol, Mijas perfectly combines its status as a mountain town with an important tourist development in its coastal area. Precisely, its privileged geographical situation between the sea and the mountains makes it possessor of endless charms, which place it among the most attractive tourist destinations in the province.

Its vast territory is divided into three urban centers that offer different faces of the town: Mijas Pueblo, Mijas Costa (Las Lagunas) and Cala de Mijas. In this way, we find in Mijas a municipality with deep-rooted traditions, which has also opened its doors to innovation and modernity.

On the slope of the homonymous mountain, the town of Mijas extends. Its historic center (declared a Historic-Artistic Site in 1969) has a layout of Arab origin with whitewashed streets, which are an improvised balcony overlooking the Mediterranean. The bullring, oval in shape; the Parish Church of the Immaculate Conception; or the sanctuary of the Virgen de Peña (17th century), the patron saint of the town, are some emblematic monuments.

The rugged landscape of the mountains gives way to the smoothness of the coast, where the nucleus of Las Lagunas is located. This area stands as the industrial and commercial center of the municipality. Mijas has a wide and well-kept coastline where the combination of beach, nature and sun offers a very pleasant and special experience. Seafood gastronomy and Mediterranean hospitality is the ideal complement.

La Cala, the central nucleus of the municipality's 12 kilometers of coastline, is right on the Mijas coast. La Cala, a town with a long fishing tradition, is home to one of the most important watchtowers in the municipality: the Torreón de La Cala.

Both the climate and the landscape of Mijas offer us innumerable sports activities; paragliding, hang gliding, marked hiking trails in the Sierra de Mijas and mountain sports in general; You can play golf in its many courses and enjoy an unforgettable day in its water park, Aquamijas.

Mijas has an interurban transport service that makes the municipality very close to all the population centers of the Province of Malaga, at the following link you can check the bus lines and schedules:

<https://www.mijas.es/portal/tu-ayuntamiento/departamentos-servicios/autobuses/>

To travel outside of Mijas, on the website of the Portillo bus company you will find information on specific routes of the lines (Algeciras, Ronda, Málaga Airport, Málaga Centro...etc.), fares and other details at:

About our accommodation...

Our newly renovated apartment located in Sitio de Calahonda has two bedrooms, a full bathroom, a spacious living room, a beautiful fully equipped kitchen and a furnished terrace overlooking the pool. You couldn't find a more convenient location than this, as Avenida España is less than 200 meters away, where you can find many restaurants and bars.

In just 5 minutes you can reach Calahonda Beach. Ideal for spending family vacations and enjoying the joy and relaxation that the facilities on the Costa del Sol can offer you!

Mijas Pueblo continues to be the main focus of attraction for both national and international tourists due to its typical beauty of the Andalusian white village. Mijas is another of those towns that make us smile the happiest. For the white, for the labyrinthine, for the flowery, for the height and for its viewpoints.

In Mijas, the summers are hot, humid, arid, and mostly clear and the winters are cold and partly cloudy. During the course of the year, the temperature generally ranges from 7°C to 27°C and rarely drops below 3°C or rises above 32°C.

Distances to points of interest:
